### Shaken, not Stirred

As the title may suggest, I am a fan of Bond films (an acute understatement). I've viewed every single Bond film, numerous times over. Each time I revisit one, I see something I have missed before, even though I am completely engrossed from the opening to the closing

credits. I will suggest applying this well-known Bond phrase as a photography ...

## Photo Walk - Light Painting at Rexhame Beach - May 19th, 2024

Let's take a leisurely stroll along the beautiful beach at night and capture some amazing photos. We will be indulging in a photo walk where we will experiment with light and try some light painting techniques. So, don't forget to bring your light painting gear with you. We will be creating some fun images with the help of light and the only limit to the possibilities of light painting is your imagination. We will also be trying out some steel wool techniques, which is a unique form of photography that involves lighting up steel wool on fire and spinning it around to capture some amazing images.

*Date Change from May 11th*

## Planit! Pro Workshop - June 22, 2024

Learn how to use PlanIt!, the photographer's planning tool. Do you know how to quickly determine the location of the Moon or Sun as it rises over a lighthouse or specific building? Do you know when the Milky Way will be visible and where it will be relative to your location? Do you know how cloud cover will impact your photograph? Plan It! allows a photographer to measure twice, cut once, and achieve a successful capture.

*Via Zoom. Recorded session available to all registrants.*

## Photo Walk - Neds Point Lighthouse Sunset and Star Trails - June 29th, 2024

Join me for an enchanting night-time adventure as we explore the captivating Neds Point Lighthouse. We'll begin our walk at golden hour, when the sun is low on the horizon, casting a warm and inviting glow over the surrounding landscape. We'll capture the breathtaking beauty of the sunset as it paints the sky with a palette of vivid colors, creating a stunning backdrop for our photographs.

As the day begins to fade into night, we'll continue our exploration, observing the changing light as it casts new shadows and illuminates different features of the lighthouse.
