[How to: Create a Timelapse](#)

As a photographer, my world revolves around the capture of a moment. A frozen sliver of time. For me, this quote, by the master Dorothea Lange sums it up: “Photography takes an instant out of time, altering life by holding it still.” This is the magic that a photograph possesses and never loses. It is a time machine. I have ...

[Planit! Pro Workshop - June 22, 2024](#)

Learn how to use PlanIt!, the photographer's planning tool. Do you know how to quickly determine the location of the Moon or Sun as it rises over a lighthouse or specific building? Do you know when the Milky Way will be visible and where it will be relative to your location? Do you know how cloud cover will impact your photograph? Plan It! allows a photographer to measure twice, cut once, and achieve a successful capture.

Photography Workshop - Milky Way Chase Group Session (Location Shoot Only) ***Scheduling Soon***

Have you ever considered delving into the captivating world of night photography? It's a unique and fascinating genre that requires a different approach compared to daytime photography. With the right techniques, you can capture breathtaking landscapes filled with stars and even photograph the awe-inspiring beauty of the Milky Way. Understanding how to manipulate your camera settings in low-light environments can open up a whole new realm of photographic possibilities and allow you to capture the elusive beauty of the night sky.

A two-part workshop is available too.

Photo Walk - Neds Point Lighthouse Sunset and Star Trails - June 29th, 2024

Join me for an enchanting night-time adventure as we explore the captivating Neds Point Lighthouse. We'll begin our walk at golden hour, when the sun is low on the horizon, casting a warm and inviting glow over the surrounding landscape. We'll capture the breathtaking beauty of the sunset as it paints the sky with a palette of vivid colors, creating a stunning backdrop for our photographs.

As the day begins to fade into night, we'll continue our exploration, observing the changing light as it casts new shadows and illuminates different features of the lighthouse.
