Since the Covid lockdowns ended, people have been living like there's so much less tomorrow. Life offers us so many possibilities but navigating the gap between where you are and where you want to be is not easy. This is especially true if you want to take on a new challenge or learn a new skill and you feel overwhelmed by all the content out there. Then the anxiety settles in...

Where do I begin? What content is the best? Who do I ask for guidance?

Solving this on a broad scale is infinitely complex, however, if you're specifically interested in Night Photography. Look and wonder no more because I've spent the last several months distilling all of my expertise into a 270-page book, from the basics to advanced insights, I've got you covered like the Milky Way covers the night sky.

Available now for pre-order.
